LIMESTONE APPLICATION

Limestone is a raw material with a variety of uses in the construction, animal feed, pharmaceutical and also as a filler.

CEMENT & CONCRETE

Limestone accounts for 80-90% of the raw material in making cement and is also used as a base for making roads and concrete.

GLASS

High quality Limestone with low Fe_2O_3 content acts as a stabiliser to make glass insoluble in water while increase durability and chemical resistance of glass.

ANIMAL FEED

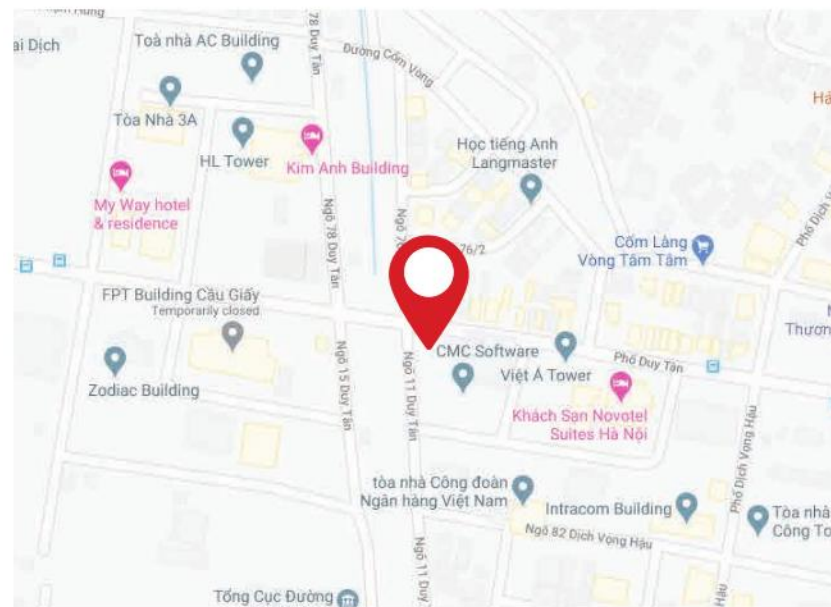

Limestone is the main source of Calcium for poultry and fish. Our feed grade limestone has high whiteness and Calcium (>38%) which is ideal for development of bones in Animals and egg shells in poultry.
